**Smart, Sensible and Sustainable Pest Management in Your School**

This 1 hour training:

- Highlighted ways to implement smart, sensible and sustainable approaches to pest management that improve asthma and health outcomes, as well as increase school attendance.
- Provided proven strategies to inspect and monitor for pests, and determine the best approach for treatment if pests are found.
- Encouraged the incorporation of school Integrated Pest Management (IPM) as part of a comprehensive IAQ management program.
- Explored national resources to establish or improve a comprehensive IPM plan, such as the IPM Checklist from the *IAQ Tools for Schools* Action Kit and the Model Pesticide Safety and IPM Guidance Policy for School Districts.

Presented by the School Health and Indoor Environments Leadership Development (SHIELD) Network
